

The Integrati 8 Zone LAN Expander Module connects directly to the Integrati or RS-485 LAN and provides an additional 8 Zone Inputs, 2 Auxiliary Outputs and 2 Siren drivers. Up to 99 Zone Expander Modules can be connected to the RS-485 LAN or via IP LAN if connected using Ethernet Bridge or CLOE devices.**

The 8 Zone LAN Expander Module also offers a UniBus in-cabinet expansion interface allowing further expansion of Zone Inputs and Auxiliary Outputs using plug on UniBus expansion devices fitted within the same tamper-protected enclosure. Up to 32 Zone Inputs or 32 Auxiliary Outputs can be connected to the Module (32 Zones and 26 Auxiliaries or 24 Zones and 32 Auxiliaries at the same time).

The power supply requirement is 11 to 14VDC and a range of Integrati plug on external 2Amp, 3Amp or 8Amp switch mode power supplies are available. Integrati external power supplies are fully monitored via the 8 Zone Expander Module.

*** Where it is necessary to connect large numbers of Zone Expanders to the Integrati RS-485 LAN, the use of LAN Isolators or other LAN retransmission devices such as Fibre Modems, Ethernet Bridge or CLOE modules is recommended.*
